The final score stood 7 to 1. The batteries were: For the Methodists, Owens and Owens; for the Presbyterians, Ward and Tadlock. The attendance holds up well, attesting the interest manifested in the series. The next game in the series will be between the Baptists and the Christians, on Hancock Field, to-day.

BUYS BOURBON HORSES

While in Kentucky as guest of the Co-operative Burley Tobacco Marketing Association, Mr. Eugene Meyer, Jr., managing director of the United States War Corporation, at Washington, visited a number of Bourbon county stock farms.

Mr. Meyer purchased three fine high-bred Kentucky saddle horses from Wm. M. Jones, of North Midletown, which were shipped yesterday to Washington, where they will be placed in Mr. Meyer's stables. The horses were fine specimens, and very much admired.

After a very busy time in Lexington and Bourbon county, Mr. Meyer left for Chattanooga, Tenn., on a tour of the South, which will take him to many of the principal tobacco markets for conferences with the growers and warehousemen.

AN ORDINANCE

An Ordinance Prohibiting the Sale of Milk Within the Limits of the City of Paris, Kentucky, Unless the Milk Cow Has First Been Given the Tuberculin Test, and Providing a Penalty for Selling Milk Not in Compliance With the Provisions of This Ordinance.

City Hall, May 25, 1922.

BE IT ORDAINED by the Mayor and Board of Council of the City of Paris, Kentucky:

1. That it shall be unlawful for any dairyman, or owner or agent of either, to offer for sale or sell any milk within the limits of the City of Paris, Kentucky, for human consumption whether the owner of such milk cow be a resident or not, of said city, the cow or cows from which said milk is given shall first be given the tuberculin test (The Standard to be set by the State Veterinarian of Kentucky); that said test shall be given to each of such cow or cows at least once in each twelve months, providing any cow or cows being what is termed re-actor to such test, then in that event such test shall be given at least once every four months. Also any suspicious re-actor shall be isolated and sale of milk or products from her be stopped until another test is made, and that test not before six weeks.

2. Each dairyman owner of cow or cows offering for sale or selling milk within the limits of the City of Paris, Kentucky, shall be given thirty days' notice for the City Health Officer to make such test, and upon the failure of said dairyman or owner to cause such test to be made he shall submit in writing to the City Health Officer his reasons for failure to comply with such regulations; that the validity of such reason submitted shall be passed upon by the said Health Officer, and if invalidated by the said Officer, then the owner or dairyman or his agent shall be proceeded against for infraction of this Ordinance.

3. Any expense incurred by the provisions of this ordinance shall be borne by the owner or the agent

TO REPRESENT PARIS AT HIGHWAY MEETING

Judge Denis Dundon has gone to Jacksonville, Florida, where he will represent the Paris Commercial Club, in connection with the commercial organizations of Cynthiana and Falmouth at the meeting of the directors of the Dixie Highway Association to be held there to-morrow.

The purpose of the meeting is to route definitely the Dixie Highway. These three towns, Paris, Cynthiana and Falmouth, have been putting forth every effort to get this highway routed through their respective places. The route is at the present time in much better condition than any other in this vicinity running through Kentucky from north to south. It is hoped the meeting will result in a decision favorable to this place and to the other towns on the proposed route, as great material benefit will accrue to them thereby.

The Dixie Highway is perhaps the most extensively traveled north to south highway in the United States, and will mean much to Paris to be located on this great artery of automobile traffic. Automobile association statisticians estimate that over thirty thousand cars travel the Dixie Highway every year. Money talks, and here's the way it looked to us: If every car that passes over this highway through our town would average spending at least fifty cents, then the Dixie Highway would mean to Paris in dollars and cents \$15,000 increase in business every year.

operating or selling milk, and no expense be borne by the City of Paris, Kentucky. Any dairyman or owner or agent of either who shall fail to comply with the provisions of this ordinance, upon conviction shall be fined not less than \$5.00 or more than \$25.00 and each sale be considered a separate offense, and upon the second conviction under this ordinance the dairyman, owner or agent shall be prohibited from selling milk within the limits of the City of Paris, Kentucky.

4. This ordinance shall take effect from and after its passage, approval and publication, as is required by law.

F. B. JANUARY, Mayor.

Attest: J. W. HAYDEN, City Clerk.

A New York physician was arrested recently as a "walking arsenal." On his person was found a revolver, a bludgeon, a dagger, a pair of pliers and a screw driver. Now, if he had been a dentist, all this would be understandable.

Courtesy is a language understood by all nationalities, by the illiterate as well as the literate; it is used to a certain extent, among savages as well as the highest statesman. No class has the exclusive right to it, nor are we immune from its pleasing force.

According to an esteemed contemporary corn sold in 1780 in Kentucky for from \$50 to \$150 a bushel in Continental currency. Well, it sells for that much nowadays, in the coin of the realm. The consumer doesn't mind paying the price, but he does wish he could be relieved of the fear that what he gets may prove to be wood alcohol.

A volume of advice to young women published more than a century ago says, "girls of to-day are fast losing the respect of men." The writer should have said "the fast girls of to-day" but by mixing "fast" up with the verb she wrote history which time proved inaccurate.

It was reading, not spelling, which the Lord of Verbulum declared to make "a full man," and, confronted with undeniable evidence that Daniel Boone had these several ways, all incorrect, for signing himself "your humble servant," we would remark that at that he carved this name, not alone on "shuger" trees, but on the tablets of history.

A little later he called again and said he wanted his five cents back, because he liked the paper so well he wanted to pay the full subscription rate and get it for a year. Anybody can play the game. Only five cents is required to start at."

HAD TO LIVE ON TOAST AND MILK MOST OF TIME

Mrs. Nettie Phillips Says She Believes Tanlac Saved Her Life When It Rid Her of Stomach Trouble.

"I am the happiest woman in town since my recovery. I believe Tanlac saved my life," said Mrs. Nettie Phillips, of Mogadore, near Akron, Ohio.
"My stomach was so badly disordered for some years I had to live on toast and milk most of the time, because solid food caused me perfect agony. I had dizzy spells when black spots swam before my eyes and I dreaded to go to bed for I could not sleep. I was taking medicine all the time, but kept getting worse.
"A few bottles of Tanlac have made me so I can eat anything without indigestion. I have a healthy color, sleep well, am free from the dizzy spells, and have gained several pounds. It is no more than right for me to recommend Tanlac."
Tanlac is sold by all good druggists. (adv)

FIRE DEPARTMENT CALLED OUT.

In response to an alarm turned in Monday night about 11:30 from Box 33 the fire department made a hurried run to Fifteenth street, only to find some mischievous person had turned in a false alarm. No fire was found in the vicinity, and a thorough search of the neighborhood did not reveal any one who knew anything about it. These runs cause annoyance and trouble to the members of the fire department, and the guilty parties should be apprehended and made to suffer for what they think is a joke on the boys.
The department answered an alarm Tuesday afternoon from Box 12. A lot of grass and rubbish near the home of Charles Whaley, in East Paris, had caught fire and was dangerously close to the Cillier corn cribs. The fire was extinguished with chemicals.

HANCOCK FILLY PAVLOWA WINS AT LOUISVILLE

Pavlowa, a filly by Wrack-Tread Lightly II, won the sixth race at Louisville, Tuesday, in the orange jacket and blue cap of A. B. Hancock, her owner and breeder. She ran as though she might develop into a really high-class filly. Outplaced to the last turn she skinned the rail and saving ground drew into the lead and held Antonia safe at the end. Antonia showed a fine flight of speed by tin-canning out in front after breaking fast. She succumbed to the winner in the last sixteenth.
Pavlowa found many backers among the local race players, rewarding them by paying \$14.10 in the mutuels. Mr. Hancock was greatly pleased with the good showing made by Pavlowa.

D. L. Honican, 411 Main street, Paris, says: "A few months ago my kidneys almost put me past going. They were weak and I was annoyed by the frequent action of my kidneys. The secretions were highly colored and passed frequently. My back ached most all the time. I was restless at night and couldn't sleep. My kidneys were in such bad shape that I began using Doan's Kidney Pills, which I got at Oberdorfer's Drug Store, and it didn't take them long to fix me up in good shape. I have never since been bothered and I can't recommend Doan's Kidney Pills any too highly."

Mr. Harris sent Mr. Graves one of the finest and oldest hams he could find in the county, and a few days ago received a letter from the recipient expressing his thanks and appreciation of the gift in the warmest terms. Mr. Graves stated in the letter that every member of the team had been given a generous portion of the ham, and that each had expressed his delight upon partaking of the toothsome meat. The Colonial Dame
Spun her cloth
By Candle flame.

In 1860
In Crinoline bright,
She erected her guests
By Coal Oil light.

And later on,
How time does pass
Her home was lit
By flickering Gas.

But the girl of to-day
Who wants her home bright,
Just presses a button
And has Electric Light.

Hail Destroys Millions of Dollars of Tobacco

May Get Yours Any Day

The loss of tobacco by hail in this and other tobacco states within the last five years has run up into millions of dollars with only a small part covered by insurance. Yet, the amount of insurance received by growers who had the foresight thus to protect themselves against such loss, was enormous and should make every grower not only feel the necessity of insuring his tobacco crop against hail storm loss but to do that very thing and do it at once.

What Dr. Halley Says: Dr. Samuel H. Halley, of the Burley Tobacco Growers' Company, upon congratulating an insurance company on lowering its rates on tobacco hail insurance, said, "Within the period that I have had hail insurance I have had four severe losses. The money I received exceeded considerably what I paid in, to say nothing of my peace of mind that I was fully protected in case of a storm. I have always advocated carrying hail insurance on tobacco without which every grower takes a chance to lose all. With it he can, in safety, go into the business of producing a crop which requires, as does tobacco, so much labor, time and money."

Now that the Burley Growers have gone into an organization to handle their business in a modern economic business-like way, I see no reason why all growers can not take out insurance on the reduced rates the companies are now quoting. Look up the insurance agent in your section now, and let him protect you against the loss of your tobacco. Policies effective July 10th, noon.

THE NEW REGISTRATION LAW NOT ENDORSED

The recent Legislature passed a law requiring every voter in the State to register before he is entitled to the right of suffrage. This registration will be held in July and will cost the taxpayers of the State \$125,000. There is only one little reason why the taxes of the State are so high and still climbing. This law is of no benefit whatever to the people of the State, and will work a hardship in many ways, as it comes at a time when the people in the rural districts are very busy and will cause a lot of unnecessary work and campaigning to get the voters to register.

COMMISSIONER HEARS ARGUMENTS IN OIL CASES

Arguments by attorneys representing the stockholders of the Bourbon Oil and Development Company and its offshoot, the Co-operative Land and Development Company, and others representing the Mutual Oil and Refining Company, were heard in the court house before United States Commissioner Charles N. Wiard, of Frankfort.

Among the attorneys present were J. A. Edge, of Lexington, representing C. C. Bosworth, of Lexington, receiver for the companies; Judge Denis Dundon and E. M. Dickson, of Paris; John P. Rhodes, of Danville, and J. Hooker Stivers, of Paris, auditor for the receiver, Jas. Park, of Lexington, represented the Mutual Oil and Refining Company.

Stock in the Bourbon Oil and Development Company was purchased almost exclusively by Paris and Bourbon county people, many of whom will suffer heavy loss if the claims presented against the two companies are allowed. Many here who purchased or were given stock in the company at ten cents a share had demands made upon them for the payments of the remaining ninety cents per share, representing the par value of the stock.

The statements made by the attorneys showed many varying angles. Commissioner Wiard took the matter under advisement, and will probably hand down a decision this week. He has already sustained exceptions to claims of over \$60,000 against the two companies.

Are You An Ailing Woman?

Here is Most Vital and Important Advice

Jonesboro, N. C.—"At one time I was greatly distressed and had to walk tip-toe for fear of jarring myself. The doctor said I had an organic trouble. He doctored me for that and I received some relief from his medicine, enough so I could do a little work in the house, but for two years I suffered with that awful 'achy' pain. Finally, a friend heard of my illness, and told me what Dr. Pierce's Favorite Prescription had done for her, and I decided I would try it. The first few doses helped me, and by the time I had taken two bottles I began to feel all right again. I have great faith in Dr. Pierce's Favorite Prescription."—Mrs. Hannah McCain. GAME WARDEN BUSY

State Game Warden A. W. Bullock, of Paris, has been active in his work in the past few days. Besides securing conviction in the cases of two violators of the fish and game laws at Boyd, in Harrison county, this week, Mr. Bullock located four illegal fish traps in Pendleton county, which he confiscated and destroyed. The owners were not found, but Mr. Bullock hopes to land them later on.

Mr. Bullock says Bourbon county is gaining an enviable reputation for the efficiency of its Game and Fish Club, and that he has had very little work in this county. Bourbon county sportsmen are spreading the gospel of law observance and seeing that it is heeded. Pot hunters and law violators are giving Bourbon a wide berth these days.

CANTRILL SAYS G. O. P. IS IN PANIC

Victories of Beveridge in Indiana and Pinchot in Pennsylvania are but the rumblings of even larger protests to be registered against the Republican "Old Guard" and the Harding administration, in the opinion of J. Campbell Cantrill, Seventh District Congressman, who arrived in Lexington, Friday, for a stay of several days.

"It is the gathering of an avalanche," was the expression of Congressman Cantrill. "The defeat of those who have so long held the reins in Pennsylvania, by Pinchot of the Progressive wing of the party, has almost thrown the Republican party leaders into a panic. In Washington they are more than concerned over the recent results in Indiana and Pennsylvania. It is causing them to do some hard thinking and the result is they are deeply worried over the sudden turn of events," said Mr. Cantrill.

SALARIES SET FOR SUMMER SCHOOL TEACHERS

Letters were sent to county school superintendents last week by Superintendent of Public Instruction George Colvin, calling attention to the salaries to be paid for the summer teaching training schools. The maximum salary for principals is \$37 and \$225 for teachers.

Germany is regaining all she lost in the war, says George Sylvester Viereck. The regret is that George is not over there.

A cluster of snakes recently found in Dorsetshire, England, contained 634 of these reptiles.

CHANGE OF LIFE WOMAN'S TRIAL

Proof That Lydia E. Pinkham's Vegetable Compound is of Great Help at This Period

Metropolis, Illinois.—"I have taken Lydia E. Pinkham's Vegetable Compound and it is all it claims to be and has benefited me wonderfully. I had been sick for eight months with a trouble which confined me to my bed and was only able to be up part of the time, when I was advised by a friend, Mrs. Smith, to try Lydia E. Pinkham's Vegetable Compound and Liver Pills. I was so much benefited by the use of these medicines that I was able to be up and about in two weeks. I was at the Change of Life when I began taking the medicines and I passed over that time without any trouble. Now I am hale and hearty, do all my housework, washing, ironing, scrubbing, and cooking, all there is to do about a house, and can walk two or three miles without getting too tired. I know of several of my neighbors who have been helped by your medicines."—Mrs. EMMA CULVER, 705 E. 7th St., Metropolis, Illinois.

Depend upon Lydia E. Pinkham's Vegetable Compound. Nervousness, irritability, heat flashes, headache and dizziness, are relieved by this splendid medicine.

PLAN TO RE-OPEN LEXINGTON OPERA HOUSE

Plans are on foot for the re-opening of the Lexington Opera House, with road shows the coming season, according to a well-defined rumor.

Mr. Scott, when interviewed, admitted that negotiations were on for the re-opening of the opera house, the season to begin in August. According to Mr. Scott, an expenditure in the neighborhood of \$25,000 will be required to put the opera house in condition for road attractions and if the plans go through work on improvements will start immediately.

The Lexington opera house is one of the most noted in the country. Practically every prominent actor and actress has appeared on its stage. When announcement was made some time ago that its life as a theatre had ended, there were general expressions of regret.

For Ten Dollars and Ninety Cents—This 30 x 3½ Usco

THE 30 x 3½ tire situation today is just this—The man who buys an USCO at \$10.90 is justified in believing that his money is going farther in tire value than it ever has gone or could go before.

Naturally he appreciates the quality of USCO. That was established long ago.

It is still fresh in his mind that USCO led the national market into the \$10.90 price range.

The makers of U. S. Tires always intended the 30 x 3½ USCO to be the highest value in its field.

At \$10.90 it creates a new classification of money's worth.

The Thrifty Citizen Who Caught the Plugged Nickel

MR. BROWN had swallowed his lunch and had paid his bill. Cautiously he counted his change. "Here!" he said, sharply, "Take back this plugged nickel and give me a good one!"

Mr. Brown walked proudly out. They couldn't fool old Brown.

But old Brown had fooled himself.

Brown's day was heavy and dull. He lacked "pep." There was a mid-afternoon drowsy spell when he needed to be awake—the direct and natural result of heavy, starchy breakfasts and lunches, taken on faith and without question as to value—just because the food looked and tasted like food.

Thousands of shrewd business men who count their change, take their food for granted.

That's what builds up the sanitarium business, and puts the tired "all-done" feeling into the mid-afternoon of a business day.

Grape-Nuts is a scientific food whose delicious, appetizing flavor and crispness are an introduction to well-balanced nourishment—a nourishment easily and quickly assimilated, so that body, brain and nerves are well fed and kept free of the stored up poisons left by so many ill-selected foods.

Served with cream or good milk, Grape-Nuts is a complete food, always ready, always a delight to the taste—and always a safe selection for the man who thinks his stomach is entitled to some of the same protection he gives to his pocket.

KENTUCKY WOOL IN DEMAND ON TWO DIFFERENT POINTS

Kentucky wool is liked by wool dealers and manufacturers because of its light shrinkage and freedom from dirt and chaff, according to L. J. Horlacher, in charge of sheep work at the College of Agriculture. The majority of the State's wool crop, which totals more than two and one-half million pounds, is graded as quarter-blood and three-eighths blood, he said.

"The common mountain sheep produce very coarse, light fleeces grading as quarter-blood, low quarter-blood and common wool sold for only two-thirds as much a pound as the quarter-blood and three-eighths blood."

"The two latter grades are produced by the Hampshire, Shropshire, Oxford Cheviot and South-down pure-breds and grades. A pure-bred ram of one of these breeds when bred to a common ewe usually will improve the fleece of the offspring sufficiently to raise it from low quarter to quarter-blood thereby increasing its value one-third to one-half on the basis of 1921 prices."

MOTHER!

Clean Baby's Bowels with
"California Fig Syrup"

Millions of mothers depend upon genuine California Fig Syrup to clean and freshen baby's stomach and bowels.

When the little one is constipated, has wind, colic, feverish breath, coated tongue, or diarrhoea, a half-teaspoonful promptly moves the poisons, gases, bile, souring food and waste right out. Never cramps or overacts. Contains no narcotics or soothing drugs. Babies love its delicious taste.

Ask your druggist for genuine "California Fig Syrup" which has full directions for infants in arms, and children of all ages, plainly printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup. (adv F)

HEAVY PUNISHMENT FOR BERT COLLYER

Bert Collyer, Chicago sport writer, was found guilty on a charge of criminal libel by a jury in criminal court at Louisville, Tuesday, and his punishment fixed at a fine of \$15,000 and a sentence of thirty days in jail.

The verdict was in a measure a vindication of R. D. (Dick) Williams, Louisville and Oklahoma turfman, who had been accused of "ringing" horses and cheating at cards in a publication, Collyer's Eye, which the Commonwealth held is property of the defendant.

Collyer was admitted to bail in the sum of \$15,000 pending appeal which his counsel announced would be taken. His bond had been \$300 prior to conviction.
